## **COVID-19 TESTING SITE**

Ed Gutwein, White County Emergency Preparedness Coordinator, said that the State is offering \$100,000 to each County to open a Covid-19 testing site. They would like to see it open from September 1 through the end of June 2021, approximately 35 hours a week. The Indiana State Dept. of Health (ISDH) will provide the training, materials for the site, software, and everything else needed. The County has to provide a site location (either a drive-thru or a walk-up place) and the employees. The Health Department employees will not be able to do it because they are already too busy.

Tippecanoe County chose not to do a site because they already have places in the County where the public can go to get tested. Cass and Benton County are going to do the site testing. Currently, you can only get tested in White County if you are symptomatic; otherwise, you have to travel out of the County to get tested.

There is a contract that the County will have to sign with ISDH if we choose to do this. The WC Health Officer does not want the Health Dept. to be involved with the testing site because of their workload already, but according to Mr. Gutwein, Board Member Dr. Misenheimer is in favor of White County having a testing site.

After a lengthy discussion, the Commissioners and Council expressed concerns with liability, location, and funding to pay employees. Mr. Gutwein also points out that we could also join another county to put up a testing site and have double the funds.

The Commissioners wanted to discuss this with the Council during the budget hearings and hopefully have an answer by the next meeting.

## **CROSSROAD WIND FARMS**

Matt Thorton, EDP Renewables, appeared to discuss the Rosewater Wind project, which consists of 25 wind turbines. This is the seventh project in White County and will be completed in November 2020. The Rosewater Wind project is in partnership with NIPSCO. NIPSCO will be the owner, and EDP will be the operator. The Crossroad Wind Farm project, Project 8, will be south of Reynolds to Brookston. They are hoping to start construction on the 72 wind turbines this summer/fall, and they are also working with NIPSCO on this project.

## **BADGER GROVE CHURCH**

Commissioner Steve Burton said that the Badger Grove Church in Badger Grove would be celebrating their 150<sup>th</sup> Anniversary on August 30.

- Commissioner Burton made a motion to proclaim August 30, 2020, Badger Grove Community Baptist Day celebrating 150 years of service and contribution to White County, seconded by Commissioner Diener. **Vote: Unanimous**
